

RAYNARD FARM EQUIPMENT LTD.

Raynard Farm Equipment Ltd. - operating as L.R. Truck Centre/Tillage Village has served southwest Saskatchewan since 1981. They specialize in uniting the farm machinery industry with the trucking industry. They handle such product lines as Westward, MacDon, Degelman, Vermeer, Highline, McCormick Farm Tractors, Freightliner

trucks and Doepker trailers.

In 2005 the Raynards expanded their business to include L.R. Super Wash, L.R. Super Lube, and Village Coffee Tyme. They have 29 employees on staff. Because of the high standards they have for the wash, they wanted the final rinse cycle to have a spot free finish. To achieve this they had a R/O system installed by A.R. Water Wise. Having the water supplied by the city of Swift Current and

the R/O system already in place is was a natural fit to add a second R/O system and an ozinator to produce the highest quality of water. Requiring a distribution center they were pleased to partner up with Mike and Melissa from A.R. Water Wise. Together they formed a new company called Water Tyme Inc. and went into the bottled water business.

MON-FRI 7-5 SAT 8-5

Water Wise is locally owned and operated by Mike and Melissa McLachlan since 2001.

The company has been operating in Swift Current and serving the Southwest since 1983. Saskatchewan has some of the worst water problems and knowledge of how to successfully treat these problems has been the key to the company's success. Water Wise handles all types of water treatment equipment including water softeners, iron removers, reverse osmosis systems, pumps, pressure tanks and more...

Although for many years the focus was primarily on household systems we have branched

awarded the job to supply and install the pre-treatment equipment and reverse osmosis units for the spot-free rinse during the truck wash expansion. This initial contact developed into a business partnership which would utilize some of the existing reverse osmosis water from the truck wash and the expertise provided by Water Wise and their existing water business to manufacture, bottle and distribute drinking water. This new venture is now known as Water Tyme Inc. Many thanks go out to our local customers for your loyalty and support over the years.
