

Residential Water Softeners

THE BENEFITS OF CONDITIONED WATER

SOAP SAVER

Hard water impairs the cleansing strength of detergents. Conditioned water not only delivers greater washing power, it reduces soap requirements (up to 70%). Soft water also protects your washing machine at the same time.

CLOTHES BRIGHTENER

Clothes last longer, come out fresher, cleaner and softer when washed in conditioned water. Colors stay brighter too.

MONEY STRETCHER

The cost of your cleaning supplies will drop drastically with conditioned water because you'll use less soap and fewer harsh chemicals and detergents to get the job done.

DISH SPARKLER

Tired of streaks and spots on glassware and dishes? Conditioned water eliminates the problem and helps your dishwasher last longer too.

STAIN ELIMINATOR

All bathroom fixtures benefit from conditioned water. There will be no more unsightly rings, stains or mineral build-up to darken your porcelain or your day.

SCRUBBING HELPER

Washing floors, tile and woodwork goes much easier and faster with conditioned water because it eliminates the film and soap scum that hard water causes.

HOT WATER GUARD

Conditioned water adds longer life to your water heater by minimizing the scale build-up created by hard water minerals. It will save you money too. Less energy is required (17% to 21%) to heat water in tanks without a scale build-up.

PIPE PROTECTOR

Over a period of time, scale forms to clog your plumbing. As the pipes clog, water flow is restricted and water pressure can be reduced dramatically. A water conditioning system minimizes this headache.

FAUCET PRESERVER

Hard water scale corrodes and plugs valves in water-using appliances. Shortens service life and costs you money.

BODY REFRESHER

Bring conditioned water to your bath or shower and you'll feel a refreshing difference. You'll wash "really clean" faster and without soap build-up on your skin. You'll come away more relaxed and refreshed than ever before.

HAIR PAMPER

A conditioned water shampoo revives hair color and makes it more radiant and manageable.
